

## Topic 1 - Ratios

Friday, November 2 kicks off Module 2. The first of three topics in this Module will be Ratios. Over the next two weeks we will be looking concept of ratios, then applying the concept to real life situations with tables, the coordinate plane, tape diagrams, double number lines, and equations.

Your student's will have this schedule for Topic 1 in their notebooks on page 29. Remember a copy of the ISN (individual student notebook) is always available at [www.darstein.weebly.com](http://www.darstein.weebly.com). This is every students' opportunity to start fresh with a well-organized notebook.
